TAKE FLIGHT PHOTO OPP: SETUP GUIDE

What you'll need:

- 1. A plain backdrop (a bedsheet, foam board, or pop-up banner works)
- 2. Puffy white cloud cutouts (craft paper or cotton batting)
- 3. A hot-air balloon basket prop (a large basket or cardboard cutout painted to look like a balloon basket)
- 4. A hand-lettered sign: "I'm Ready to Take Flight!"

Optional extras: aviator sunglasses, explorer hats, a cardboard airplane cutout

How to set it up:

1. Hang or prop your backdrop against a wall or freestanding frame.
2. Attach cloud cutouts around the edges of the backdrop for a sky effect.
3. Place the balloon basket prop in front of the backdrop so kids can stand inside it or behind it.
4. Set your sign where it's visible in every photo, either propped in the basket or hung above the backdrop.
5. Add a small table nearby with the optional props so families can grab sunglasses or a hat before stepping in.

Tip: Station a volunteer at the photo opp to help families get the shot and to hand out a VBS 2027 save-the-date card as they finish, so the moment turns into a next step!
