

Patriotic Paper Bag Kite

Supplies:

- paper bag
- red, white, or blue paint
- paintbrushes
- red, white, or blue streamers
- ribbon or twine
- white paper (cardstock works best!)
- scissors
- pencil
- tape or glue

Instructions:

1. Paint your paper bag the patriotic color of your choice. Allow to dry completely.
2. Cut streamers to desired length.
3. Using tape or glue, attach the streamers to the inside of the paper bag. If using glue, allow to dry.
4. Trace stars on your piece of paper, then cut them out.
5. Attach the stars to the paper bag using tape or glue. If using glue, allow to dry.
6. Poke a small hole in the bottom of the paper bag and thread the ribbon or twine through the hole. Tie a knot or two to keep the ribbon or twine in place. (You can also secure with a piece of tape to help it stay in place.)
7. Once all the pieces of your kite have dried, take it outside in the wind and fly it using the spool as a handle!
